Publisher Comments:

Master Oracle E-Business Suite's Oracle General Ledger

Maintain a centralized, highly automated processing platform acrossAndnbsp;a fully integrated set of Oracle E-Business Suite applications using Oracle General Ledger. This Oracle Press guide explains how to utilize Oracle General Ledger to distribute timely and accurate financial information enterprise-wide. Learn efficient techniques for creating transactions and budgets, defining custom rules and flows, reconciling balances, and easing regulatory compliance. You will also discover how to consolidate financial data, process foreign currencies, and implement the brand-new Oracle Subledger Accounting.Plan, test, and carry out a new implementation or upgradeWork with ledgers, calendars, journals, budgets, and business flowsConvert and load data from external systems and spreadsheetsPerform company-wide consolidationsRender reports using the Financial Statement GeneratorHandle foreign transactions, translations, and revaluationsCentralize accounting rules using Oracle Subledger Accounting Understand implications of setup and implementation decisions

Synopsis:

The first book to offer detailed coverage of Oracle General Ledger--only from Oracle Press

With this authoritative guide, you will move seamlessly from a business consideration of a General Ledger implementation to detailed setup requirements to complete processing instructions. The book covers the latest version of the software--R12--including the most innovative new features such as Subledger Accounting.

Oracle E-Business Suite: General Ledger Guide offers complete explanations of setup flows and processing details for each screen and field. This Oracle Press guide is ideal for users, support personnel, and consultants either considering or involved in an actual upgrade or implementation of Oracle E-Business Suite Financials. .
